# Our Equipment

## Main Production Lines

### Aluminum foil POE :

for infant nutrition , dry food and canned food.  
Using SOUDRONIC, imported from Switzerland, equipped with 2 lanes of fully automatic heat sealing system of high speed.  
Speed: 300pcs/min/set

### Auxiliary Equipment

KUKA ROBOT PACKING SYSTEM  
AUTOMATIC BALANCING SYSTEM

### Beverage EOE:

3 set production lines , total 6 MINSTER EC-H125 high speed conversion presses each equipped with 6 lanes  
Capacity: 9000 pcs/min/production line  
Annual Production Capacity: 3 billion / production lines

### Food can EOE:

10 sets of MINSTER EC-H125 high speed presses equipped with 4 lanes.  
Capacity: 2000 pcs/set/min , annual production capacity of 10 billion easy pull cover scale, most of export at home and abroad.

## Intelligent logistics and warehousing systems

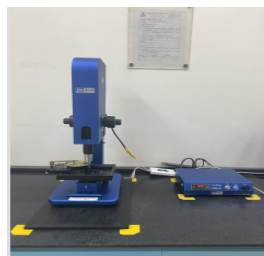

- Use intelligent logistics and warehousing systems by Daifuku Japan
- Support with intelligent management system and automated logistic system in work floor
- Increase efficiency
